

On Common Ground: Messages from the Agri-Environmental Partnership of Alberta

Welcome to the AEPA E-Newsletter: On Common Ground

Welcome to *On Common Ground: Messages from the Agri-Environmental Partnership of Alberta*, our new e-newsletter. It is intended as a source of information for those interested in the work of the Partnership and agri-environmental policy issues in Alberta. It will be released four to six times a year and will feature articles about topics of interest to both AEPA and agri-environmental policy issues. This will include highlighting the work of the advisory teams and discussions of changes to policies.

On Common Ground will contain regular sections in each issue. The first is our “Partner Profile”. This section will offer a chance for AEPA’s partner organizations to share a bit about themselves and to highlight any projects or initiatives they think will be of interest to other partner organizations. Please see below for our first Partner Profile, “A Look at the New Alberta Wheat Commission”.

In the right hand column of the e-newsletter, you will find notifications of upcoming events and links to organizations, activities and other information that may be of interest.

On Common Ground is intended to be both a tool for communication from AEPA to its stakeholders and an opportunity for organizations to share information with each other. Therefore, if you have information you would like others to know, or have suggestions for future articles, please contact us.

And as always, any feedback you have on the e-newsletter is appreciated.
